Practical exercises

- Submission for PE1 is open now
  - Submission for the groups configured by this morning
  - Let me know if there are changes

- Number of points achievable per assignment?
  - 10 points per practical assignment
  - Distribution to single tasks/questions is now indicated on the assignment sheet (updated PDF)
  - Future assignments PE2–6 will also have 10 points each

- You can achieve 60 points overall in the practical exercises
  - We chose not to demand a minimum number of points
  - But remember, the practical exercises are 50% of the final grade…

Norwegian University of
Science and Technology

Lecture mode, recordings, etc.

- Faglærermøte last week
    - No changes to the lecture mode for TDT4205
    - Lecture videos will continue to be provided on YouTube
    - The microphone still isn't perfect (need to get a better one), but I hope the audio quality is a bit better

- Sorry for the chaos last Friday
    - …urgent dentist appointment… :(

Additional material

- There was some demand for a Unix introduction on the OS course
  - We will try to provide an overview lecture which also applies to the compiler course
- Syllabus
  - We will also indicate (on the web page) which book chapters provide background reading for the respective lecture
- Do you want additional material?
  - Let us know (e.g. on piazza or by email)!
